

Tracking subcellular localization of surface proteins in *Staphylococcus aureus* by immunofluorescence microscopy

 Salvatore J. Scaffidi  Mac A. Shebes  Wenqi Yu

Updated date: Dec 21, 2020

An abbreviated version of this protocol was published in eLIFE in May 2018

Septal secretion of protein A in *Staphylococcus aureus* requires SecA and lipoteichoic acid synthesis

DOI: 10.7554/eLife.34092
